

The Healthy Slushy

Frosty Fruit meets the California Smart Snacks in School nutrition standards

Back in June 2013, the USDA took a major step forward in releasing their final set of guidelines for beverages and foods sold in schools – with the deadline for implementation by July 1, 2014.

We here at Frosty Fruit are excited to see these new federal/state guidelines enacted to support better health for our students across the country. Frosty Fruit meets these new guidelines and since Frosty Fruit is 100% fruit juice it can be offered after the scheduled lunch period.

Frosty Fruit slushy products are sold in both concentrate and pouch form. Both contain the same fantastic tasting 100% juice drink that is sold in schools around the country.

For more information please visit their website - <http://www.frostyfruit.net/>

Nutritional information and eleven flavors are listed below

Please note that in California, elementary students are allowed to have no more than an 8oz portion and Middle, Junior and High School students are allowed to have no more than a 12oz portion
