

FOOD SAFETY IN OUR KITCHENS

School cafeterias across the nation are mandated to receive two health inspections per year. This is to ensure that our facilities and workers are complying with all safety and sanitation requirements - from checking food temperatures to wearing gloves. The Sacramento County Environmental Health

Department does an

excellent job in assuring this mandate is met. Every cafeteria in the Twin Rivers School District has always received their required number of inspections.... but we don't stop there.

We self-inspect our sites on a regular basis. Every kitchen has at least one staff member who is a Certified Food Manager. Our Field Supervisors and Management staff are constantly visiting our cafeterias to

ensure our staff are following safe food handling practices. We developed a "Site Standard" inspection to ensure that every aspect of food safety in our cafeterias are checked on a regular basis.

In 2014/2015 the Environmental Health Department awarded 15 Twin Rivers school sites and 3 independent sites with the Food Facility Award of Excellence:

Creative Connections Elementary School

Fairbanks Elementary

Garden Valley Elementary

F.C. Joyce Elementary

Madison Elementary

Noralto Elementary

Oakdale Elementary

Regency Park Elementary

Rio Tierra Jr. High School

Sierra View Elementary School

Smythe Elementary

Strauch Elementary

Vineland Elementary

Westside Elementary

Winona Café

Our Independent Sites:

Pacific High School

Skvarla COA Elementary

Leo A. Palmiter High School
