

Negotiations Update

Negotiations Public Update:

April 13, 2018

To The TRUSD School Community:

The district and TRUE leadership continued negotiations on Wednesday, April 11th. The group is making great progress on a number of contract articles, including catastrophic leave, teacher evaluations, transfers and leaves. We are pleased to share that the group is working collaboratively on these important topics.

During the session, TRUE presented the district with a comprehensive proposal for salary and benefits increases. The District is reviewing the proposal for total cost and fiscal impact. This may take some time because we must assess and consider projected increases to costs in the healthcare industry. In other words, the proposed increase must be calculated for current costs and industry increases, so we can assess long-term budget implications.

We understand that the topic of salary and benefits is of great interest to all teachers, so we reaffirm our commitment to provide timely updates from our negotiations sessions to keep you informed.

We are scheduled to meet again on April 24th.

Respectfully,

The District Team:

Gina Carreón

Lori Grace

Bill McGuire

Jim McLaughlin

Sara Noguchi

David Robertson
