Assemblywoman Gonzalez usually reads to students in her home town on *Read Across America Day*. This year she has to be in the Sacramento area for business, so she is reading to students at Noralto Elementary School.

Gonzalez is well known in the education community for her passionate support of teachers and programs like *Read Across America Day*. She chose Noralto because of its similarity to schools in her home area and because Noralto is closing the achievement gap—at 95 percent high poverty and 70 percent EL (English Learners), Noralto is boasting an API of 821.

Twin Rivers Unified School District serves approximately 27,000 preschool through adult education students in northern Sacramento County.
