Students of Today Develop Solutions for Tomorrow

SACRAMENTO – Twin Rivers’ students are getting some real-world experiences this summer in a four-week course designed to learn about natural resources and how human beings have used science, technology, engineering and math (STEM) to solve natural resource problems.

The students will take their knowledge outside of the classroom to gain life experience on several field trips during the program. This week’s destination will help students from Norwood Junior High School and Foothill Ranch Middle School learn how humans solve natural resource problems through engineering solutions.

- WHO:** 7th and 8th grade students from Twin Rivers USD
- WHAT:** Field trips for real-world experience
- WHEN:** 10:00 a.m. – 2 p.m. July 9 and July 10, 2014
- WHERE:** The American River Water Education Center at Folsom Dam
7785 Folsom-Auburn Road
Folsom, CA

Twin Rivers Unified School District serves approximately 27,000 preschool through adult education students in northern Sacramento County.
