Turning Dreams into Reality

McClellan, CA—Even with scholarship awards, students have many expenses that are not covered, but make a huge difference in their adjustment and ultimate success in college.

Project DREAM created the College Bound scholarship program to help bridge that financial gap. College Bound provides selected students with a \$300 summer shopping spree to purchase dorm room and school supplies. Another goal is to provide some of the scholarship recipients with a laptop computer for their college experience.

Recently, Project DREAM was able to provide 24 computers to deserving students in the College Bound program.

“I was screaming for joy and running around my house when I got the news that I would be getting a computer to take to college,” wrote one student. “I just didn’t know how I was going to get one—this relieved a lot of stress on me.”

Over the past five years, Project Dream’s College Bound program has given \$90,804 to assist 158 students including awards of 75 laptop computers.

For more information, visit the Project DREAM website at <http://dreamtwinrivers.org/>.

Twin Rivers Unified School District serves approximately 28,000 preschool through adult education students in northern Sacramento County.
