Eye Too Grow from Concrete

McClellan, CA— Put 2,034 Twin Rivers USD fifth-graders in the same place. Add 100 cameras, 2,300 ceramic tiles and a few spoken word artists and you have an event like no other! *Eye Too Grow from Concrete* is the name of the special event and theme of the seven-week artists-in-resident program featuring Milton Bowens (his artwork is on display in Levi's Stadium), Maria Christie (founder of A Day in the Life Project) and Christopher Coon (Sacramento area poet).

Each student will produce four pieces of art at the event—two visual, one photograph and one poem. This is going to be fun. Even the paparazzi (in this case, school principals) will be there!
